

SAALFELDEN  
LEOGANG

# Tips for your sustainable holiday

**Choose eco-friendly transportation when traveling to and within the region. | Use public transport like buses, trains, or the Loigom-Soifen Shuttle (included in your Saalfelden Leogang Card), bike, car sharing or walk.**

**Use a refillable drinking bottle | Our water is of high drinking quality, whether in your accommodation, public fountains or at springs along the hiking and biking trails.**

**Enjoy local organic products | Support local farmers by buying fresh organic products at farm shops, weekly markets, or directly from regional producers.**

**Respect nature | Never leave the path on excursions and let flora and fauna flourish in peace.**

**Every drop counts | Save water and switch off the water when soaping up or brushing your teeth.**

**Help save electricity | Switch off the lights when you leave your accommodation, don't use the air conditioning and don't turn up the heating unnecessarily.**

**Take what's yours with you | Don't leave any rubbish behind on your excursions and take it back down to the valley with you.**

**The right bin | Help us to separate and avoid waste in the region.**

**Talk about it | motivate others to take a sustainable holiday and share it with them  
#saalfeldenleogang**

**You can find more information about sustainability in the Saalfelden Leogang region at
